

Full declaration of ingredients

Polyx®-Oil Spray

Binding agents:

- based on the re-growing vegetable raw materials sunflower oil, soybean oil and thistle oil

Waxes:

- based on the re-growing vegetable raw materials Carnauba wax and Candelilla wax
- paraffin

Solvents:

- aliphatic hydrocarbons = disaromatized white spirit (benzene free)

Earths:

- mineral origin, silicic acid and swelling clays (argillaceous rock)

The used mineral earths have been purified from all poisonous ingredients (e.g. heavy metals) and are physiologically safe.

Additives:

- zinc-zirconium-cobalt-octoates (are obtained from the respective minerals and are lead-free)
- ketoximes
- polysiloxanes (on the basis of silicic acid)

The listed ingredients serve to a regular drying and the prevention of film formation (5 years storage stability) as well as a strong water repellency.

Propellant:

- Propane
- Butane

Osmo Polyx®-Oil Spray will not emit physiologically harmful compounds to environment.

Osmo Polyx®-Oil Spray does not contain biocides nor preservatives. The dried finish is safe for man, animal and plant (in compliance with the German Industrial Norm DIN 53160 (fast to perspiration and saliva) and Euro Norm EN 71.3 (safety of children's toys)).

Further details concerning technical characteristics etc. can be obtained from the respective product information.
